Discussion with Save the Children and Foundation for West Africa following the performance

Refreshments will be served.

The All Stars' story and their music have led to appearances on the *Oprah Winfrey Show*, and to U.S. stages alongside Aerosmith, Angelina Jolie, Ziggy Marley, Keith Richards, and Sir Paul McCartney. After a six-month world tour, the band is stuck in the U.S., refugees once more this time due to the Ebola crisis.

Special thanks to The Foundation for West Africa  and Save the Children  Save the Children.
